# Ehrenwörtliche Erklärung

Ich versichere hiermit, dass ich meine Projektarbeit mit dem Thema *Analysis of Alien Life Forms and Their Relationship to Cats in Television Series* selbstständig verfasst und keine anderen als die angegebenen Quellen und Hilfsmittel benutzt habe.

Los Angeles, 19. Januar 2038

---

Gordon Shumway

## **Zusammenfassung**

Dies ist ein Typoblindtext. An ihm kann man sehen, ob alle Buchstaben da sind und wie sie aussehen. Manchmal benutzt man Worte wie *Hamburgeton*, *Rafenducks* oder *Handgloves*, um Schriften zu testen. Manchmal Sätze, die alle Buchstaben des Alphabets enthalten - man nennt diese Sätze Pangrams. Sehr bekannt ist dieser: *The quick brown fox jumps over the lazy old dog.*

Oft werden in Typoblindtexten auch fremdsprachige Satzteile eingebaut (*AVAIL® and Wefox™ are testing aussi la Kerning*), um die Wirkung in anderen Sprachen zu testen. In Lateinisch sieht zum Beispiel fast jede Schrift gut aus. *Quod erat demonstrandum.* Seit 1975 fehlen in den meisten Testtexten die Zahlen, weswegen ab dem Jahr 2034 Zahlen in 86 der Texte zur Pflicht werden.

Nichteinhaltung wird mit bis zu 245 Euro oder 368 bestraft. Genauso wichtig in sind mittlerweile auch *Àçcèñtë*, die in neueren Schriften aber fast immer enthalten sind. Ein wichtiges aber schwierig zu integrierendes Feld sind OpenType-Funktionalitäten. Je nach Software und Voreinstellungen können eingebaute Kapitälchen, Kerning oder Ligaturen (sehr pfiffig) nicht richtig dargestellt werden.

## Abstract

Lorem ipsum dolor sit amet, consectetur adipiscing elit. Aenean commodo ligula eget dolor. Aenean massa. Cum sociis natoque penatibus et magnis dis parturient montes, nascetur ridiculus mus. Donec quam felis, ultricies nec, pellentesque eu, pretium quis, vulputate eget, arcu.

In enim justo, rhoncus ut, imperdiet a, venenatis vitae, justo. Nullam dictum felis eu pede mollis pretium. Integer tincidunt. Cras dapibus. Vivamus elementum semper nisi. Aenean vulputate eleifend tellus. Aenean leo ligula, porttitor eu, consequat vitae, feugiat a, tellus.

Phasellus viverra nulla ut metus varius laoreet. Quisque rutrum. Aenean imperdiet. Etiam ultricies nisi vel augue. Curabitur ullamcorper ultricies nisi. Nam eget dui. Etiam rhoncus. Maecenas tempus, tellus eget condimentum rhoncus, sem quam semper libero, sit amet adipiscing leo. Sed fringilla mauris sit amet nibh. Donec sodales sagittis magna. Sed consequat, leo eget bibendum sodales.

# 1 — Structure

Lorem ipsum dolor sit amet, consectetur adipiscing elit. Aenean commodo ligula eget dolor. Aenean massa. Cum sociis natoque penatibus et magnis dis parturient montes, nascetur ridiculus mus. Donec quam felis.

## 1.1 Section

In enim justo, rhoncus ut, imperdiet a, venenatis vitae, justo. Nullam dictum felis eu pede mollis pretium. Integer tincidunt. Cras dapibus. Vivamus elementum semper nisi. Aenean vulputate eleifend tellus. Nulla consequat massa quis enim. Donec pede justo, fringilla vel, aliquet nec, vulputate eget, arcu.

### 1.1.1 Subsection

Phasellus viverra nulla ut metus varius laoreet. Quisque rutrum. Aenean imperdiet. Etiam ultricies nisi vel augue. Curabitur ullamcorper ultricies nisi. Nam eget dui. Etiam rhoncus. Maecenas tempus, tellus eget condimentum rhoncus, sem quam semper libero.

#### Subsubsection

Lorem ipsum dolor sit amet, consectetur adipiscing elit. Aenean commodo ligula eget dolor. Aenean massa. Cum sociis natoque penatibus et magnis dis parturient montes, nascetur ridiculus mus. Donec quam felis, ultricies nec, pellentesque eu, pretium quis, sem.

## 2 — Text Elements

### 2.1 New Commands

This template provides some new commands:

You can add sources in image / listing captions (see [section 3.1](#)),

You can create definitions or theorems (see [section 4.1](#)).

You can format inline code in a paragraph (see [section 4.2](#)).

### 2.2 Acronyms and References

A popular acronym is [LOL](#). In My Humble Opinion ([IMHO](#)) is another one.

Citations can have page numbers [[3](#), p. 473], [[1](#), pp. 359 - 360], but they can be left out as well [[5](#)], [[2](#)], [[6](#)], [[4](#)].

You can also add footnotes.<sup>1</sup>

---

<sup>1</sup>It is displayed at the bottom of the page.

## 2.3 Lists

Unordered Lists:

- This is an unordered list.
- Item 2.
- It has three items.

Ordered List:

1. This is an ordered list.
2. Item 2.
3. It has three items.

Ordered List (alphabetical):

- A. This is an ordered list.
- B. Item 2.
- C. It has three items.

## 3 — Figures

### 3.1 Images

Figure 3.1 shows how to display images.

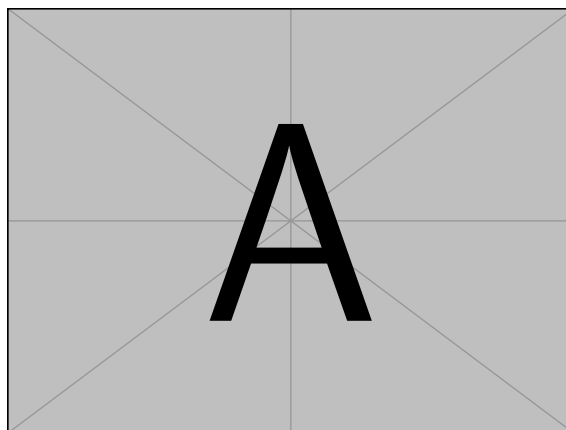

Figure 3.1: Image

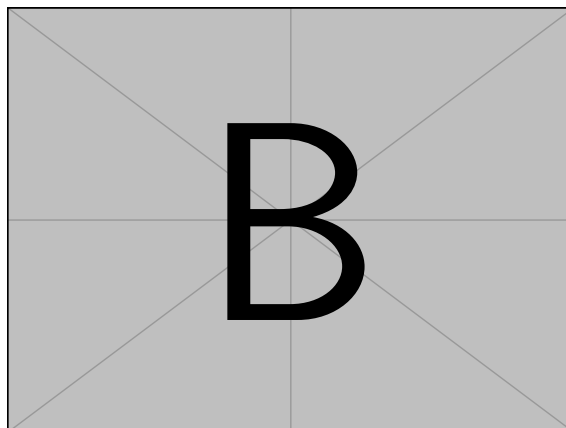

Figure 3.2: Image with Source

*Source: [2]*

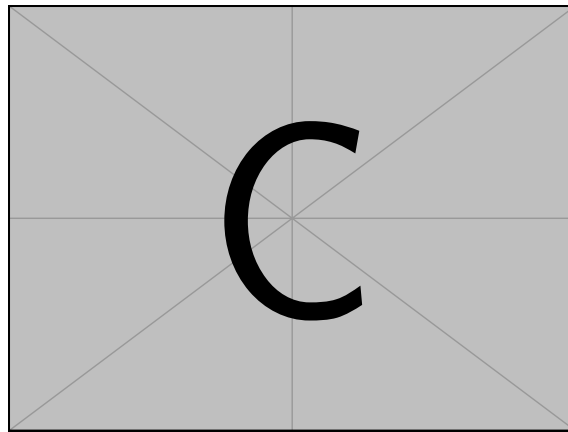

Figure 3.3: Image with Source and Link

Source: J. Doe, <https://example.org>

## 3.2 Diagrams

### 3.2.1 Sequence Diagram

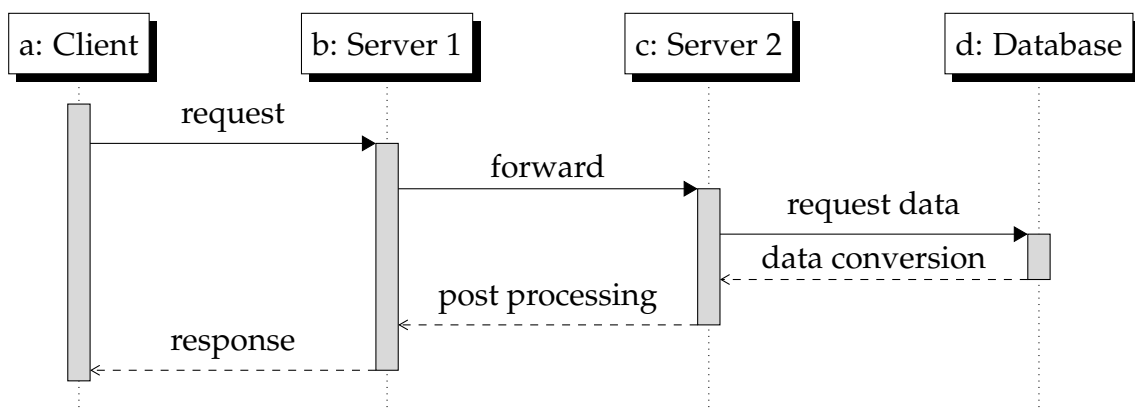

Figure 3.4: Sequence Diagram

### 3.2.2 Flow Diagram

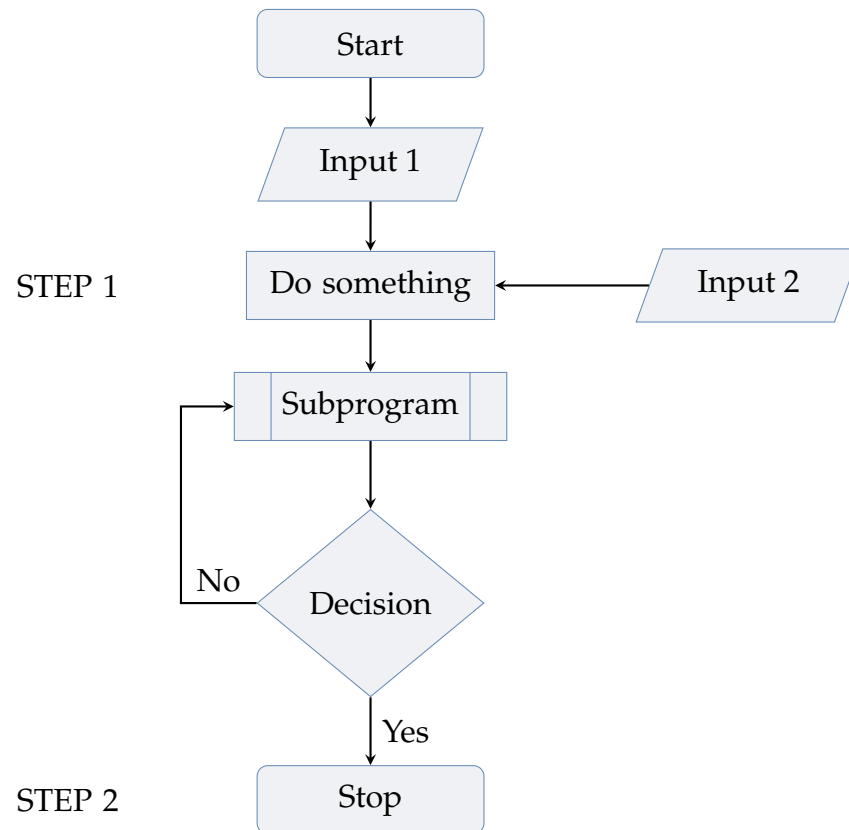

Figure 3.5: Flow Diagram

Source: [2]

## 4 — Conclusion

### 4.1 Mathematics

#### 4.1.1 Definitions

**Definition 1.** A function  $f : X \rightarrow Y$  is injective if and only if for all  $x_1, x_2 \in X$ ,  $x_1 \neq x_2$  implies  $f(x_1) \neq f(x_2)$ .

#### 4.1.2 Formulas

Formulas can be included inline, e.g.  $K_E^{CID}$  to  $S$  or as an own block.

$$otp = f_k(i, k), \quad i = 1, \dots, n$$

## 4.2 Code Listings

Code can be displayed inline, e.g. `UPDATE` or `factorial(n)`.

Code listings can have numbered lines, captions, syntax highlighting, ... .

0	1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17
A	B	C	D	E	F	G	H	I	J	K	L	M	N	O	P	Q	R

Listing 4.1: Code Without Line Numbers

*Source: [2]*

```
1 public int factorial(int n) {  
2     if (n == 1) {  
3         return 1;  
4     } else {  
5         return n * factorial(n - 1) ;  
6     }  
7 }
```

Listing 4.2: Code With Line Numbers

## A — Appendix

Figure A.1: A Big Image

Listing A.1: Fibonacci

```
1 public class Fibonacci {
2     public static long fib(int n) {
3         if (n <= 2) {
4             return 1;
5         } else {
6             return fib(n - 1) + fib(n - 2);
7         }
8     }
9
10    public static void main(String[] args) {
11        for(int i = 1; i < 10; i++) {
12            System.out.println(i + " - " + fib(i));
13        }
14    }
15 }
```
